rmarkdown_test

MarceloCS

29/01/2020

My first Rmarkdown

I'm just understanding this package

Statistical analysis

```
require(vegan)
a = c(1,2,3,4,5)
b = c(9,8,7,6,5)
ab.cor=cor.test(a,b)
ab.cor
```

plot

```
plot(a~b)
```

Results

Perfect correlation between **a** and **b** $p < 0.001$
